

## Outdoor Recess

Dear Parents,

We always plan to take the students outside for recess when the temperature is above 32 degrees. (Unless it is raining or very windy.) When the back field is wet we need to have the students use the side parking lot. In the event that you arrive at school or leave school anytime between the hours of 11:30 and 12:30 and you are parked in the parking area at the side of the building, please allow the lunch aides to guide you in and out of the parking lot. White barricades at the entrance to the parking lot will indicate that the students are outside using that area. The aides will come to you and help you around the barricades. As always, the safety of the students is a priority. Thank you.

Sincerely,

Christine McCaffery
